

TransGas' legacy business application, TransGasNet, is no longer available on our website. As a result, customers are unable to access their business data prior to June 1, 2016. If you require business information prior to June 1, 2016, please email Transport@TransGas.com or call us at Customer Administration 306-777-9900 to access the information on your behalf. You may also contact your Key Account Manager, Wendy Uytterhagen at 306-777-9687 or Nicole Sali at 306-777-9501.

Adjustments to production periods prior to June 2016 will be processed in the legacy system until July 1, 2017 by TransGas employees. The resulting billing adjustments will be included on the next issued invoice along with updated pdf statements from the legacy system as supplemental documents.

Thank you for your understanding during this transition.
