

TransGas Outlook

TransGas presented an overview of the outlook for TransGas for the near future. This consisted of an overview of TransGas' mission, as well as the current state of the TransGas system. TransGas presented ideas for guiding principles for when it develops policy or service changes. TransGas also presented a proposed list of policy items that will be considered in 2019-20. TransGas facilitated a discussion with Customer Dialogue and solicited their feedback on these two items.

Customer Dialogue Engagement

TransGas presented an overview of suggestions and feedback that Customer Dialogue members have provided for improvements to Customer Dialogue. TransGas presented potential structural changes to Customer Dialogue and facilitated a discussion with Customer Dialogue members about how best to improve the Customer Dialogue experience.

Rate Design

TransGas presented an overview of the 2019-20 Customer Dialogue rate design process. This included an overview of the proposed scope for the design process as well as the membership selection process, and the proposed rate design timeline for 2019-20.

Carbon Tax

TransGas presented an update on the Carbon Tax commencing April 1, 2019. This included a summary of the Federal Carbon Tax, an overview of the implications for TransGas and customers, and a description of the implementation timelines.

System Operations Update

TransGas presented an update on the TransGas System for winter, 2019. This included an assessment on the current state of the system as well as a forecast of the system for summer, 2019.

Nomination Window

TransGas presented an overview on NIT to TEP (NTT) nomination deadlines. This included an overview of the current NTT deadline process and an explanation of some of the challenges that the current process poses for TransGas and recent feedback from the customers.

Facility Expansion

TransGas presented a summary of TransGas system expansion plans for 2019-20 to 2024-25.
