TransGas will then enter the Request for Service and award the contract within MyTransGas.

## SUMMER EXPORT PROCESS

A description of how summer Export service will be offered in 2021 going forward is outlined below:

1. A Short Term Firm Seasonal Export will be offered in early February for export from April 1 to October 31 (i.e. this Binding Open Season).
2. Once the Seasonal Open Season closes, independent base monthly amounts for April through October will be offered. This will likely be a different transport volume for each month. These offerings will close early to mid-March.
3. When the independent base monthly offerings close, any unallocated amounts will be available on a first come, first serve basis for any time frame in the available months. These requests can be for a minimum of 1 day, a few days, a few weeks or multiple months where unallocated capacity remains. Requests may also overlap (i.e. end of August to mid-September).
4. Monthly amounts may then be offered on a near-month basis. Once a near-month offering is open, the first come first serve will be closed for that month. First come, first serve will continue to be available for future months offered in the previous independent base monthly offer. TransGas will move any unallocated near-month amounts to be available on a first come, first serve basis for a maximum of up to the next 5 days aligning with the export nomination deadlines.
5. Lastly, daily Interruptible Export capacity will continue to be offered on a best efforts basis.
